Election/Restrictions

1. The amendment filed on June 20, 2005 is canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The concept of “warping at least one portion of a given image of the camera images that includes the image’s anchor points using a transform that **changes the scale of a region in the portion and leave the position of the two anchor points invariant**; and for each portion of the at least one portion, placing the **portion adjacent a portion of an other image acquired at a position adjacent that at which the given image is acquired so that features in the portions of the given and other images are aligned**” (emphasis added) and other limitations are drawn to inventions that are independent or distinct from the invention originally claimed. The remaining claims are not readable on the elected invention because they are drawn to inventions that are independent or distinct from the invention originally claimed as explained above.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
